

Giraffes Hunter

Creation 2000

Every thousand years, the village chief of the Black Giants must make a wish for animals. While moving the mountains one day, he discovered the presence of signs indicating that a giraffe had been wandering through the oceans forever, trapped on a floating island. The Great Giant who was used to travelling, was selected by the village to bring her back.

He traveled the world and many months went by until he finally found the giraffe standing on an iceberg. He found it very difficult to capture her because these Giant Giraffes, despite being peaceful, have remained wild. They have always been afraid of Humans : not the little ones who live in our cities - far too tiny for them – but the Giants, some of which are the same size as them.

Long ago, the Giraffes were chased and caught in the kingdoms of Giants. They enjoyed watching them race : locked in huge palaces, they were made to run and the Giants wept with joy at such grace : despite those times being long gone nothing can erase the memory of these Giraffe Hunters.

So the Giant put the Giraffe in a large box, and in order to send her on her way, threw the box into a tornado that crossed the oceans. Having been immediately sucked in by the wind, the Giraffe found herself very high in the sky and when the tornado grew tired, the box landed on the ground.

But the Giant had taken care to write an address on the wood. Some little postmen transported the box to the place indicated. The address was in a city well known by him, and by the Little Giant who was waiting patiently for the giraffe. Waiting to tame her and accompany her by road to the great celebration of giraffes.
